SUMMARY

I am a final-year computer science student at BINUS University, majoring in Intelligent Systems. I am a proactive and detail-oriented student passionate about data-related fields and software engineering. Equipped with foundational knowledge in data engineering, machine learning, and software development through an internship & part-time work.

PROFESSIONAL EXPERIENCE

PT GLOBAL DIGITAL NIAGA (BLIBLI)

Jakarta, Indonesia

Data Engineer Intern

FEBRUARY 2025-February 2026

- Created and maintained a data pipeline using Airflow to extract and load data to the data warehouse
- Developed a pipeline to automate the application of BigQuery's partitioning and clustering recommendations, improving query performance and cost usage (Saved ~51.3% bytes billed and ~37.7% slot ms usage). Integrated a validation layer using Cloud Function & Gemini to detect and analyze past BigQuery jobs and table metadata
- Built a Looker Studio dashboard to monitor and visualize the impact of applied partitioning and clustering recommendations
- Contributed to the migration of the Data Engineer's internal platform from Vue 2 to Vue 3

BINUS UNIVERSITY

Tangerang, Indonesia

Part-Time Software Laboratory Assistant

SEPTEMBER 2023-January 2025

Successfully passed a series of selection processes, including aptitude test, programming assessments, interview, and training for Part-Time Software Laboratory Assistant Generation 23-2 out of 96 candidates.

- Teaches 5 classes every week, each semester for both Computer Science and Information Systems majors
- Completed post-training qualifications in Axure, Laravel, Data Warehouse, Framework Layer Architecture, and NLP

BINUS STUDENT LEARNING COMMUNITY

Tangerang, Indonesia

Scholarship Tutor Odd Semester 2024/2025

SEPTEMBER 2024-January 2025

- Teaches algorithm and programming using C language to first-year school of computer science students
- Received a scholarship with a total of 16 credits

Scholarship Mentor Odd Semester 2023/2024

SEPTEMBER 2023-January 2024

- Taught and assisted 4 colleagues to catch up academically with courses related to the current semester.
- Received a scholarship with a total of 16 credits

EDUCATION

BINUS UNIVERSITY

Tangerang, Indonesia

Bachelor of Computer Science, GPA: 3.9/4.0

2022-2026

SKILLS

Data Engineering: Python, Apache Airflow, Google Cloud Platform (BigQuery, GCS)

Software Engineering: Vue.js, TypeScript, Django

ACHIEVEMENTS

1st Place Techfest 2024 UI/UX Competition

JULY 2024

Best Performing Part-Time Assistant

AUGUST 2024
